*The Name
Signifies Better Plants*

Tom Dodd Nurseries

PHONE
JUNIPER 7614—MOBILE

SEMMES, MOFFAT ROAD ALABAMA
MOBILE COUNTY

To Our Friends:

Favorable growing conditions, ideal climate and thorough care of our plants enable us to offer to the trade this year, an excellent selection of stock.

To the florists we offer sheared, bushy and heavily budded Kurume Azaleas which are just the thing for pot plants. None of that leggy, leafless and budless stock often used in this type of trade.

To the nurserymen and landscape designers we offer unequalled nursery stock of various sizes and grades. Plants that are bound to please.

Business is definitely on a boom now and there is no reason why the nurserymen, florists and other members of the trade cannot cash in on the good money.

Try our stock! We know you will be completely satisfied. If you find time, visit with us; perhaps we can arrange a fishing trip (see inside back cover). If you can't possibly visit, try us with an order. You'll ask for more the next time.

With kindest regards to you, we remain,

Yours very truly,

TOM DODD NURSERIES.

ASSOCIATION MEMBERSHIP

To further the interest and growth of the different phases of our work and to keep posted on all affairs of interest to the trade, we maintain membership in the following organizations:

American Association of Nurserymen.
Southern Nurserymen's Association.
Southeastern Florist Association.
Alabama Nurserymen's and Florists Association.
Mississippi Nurserymen's and Florists Association.
Florida State Florist Association.
Texas State Florist Association.
Mobile Chamber of Commerce.
Mobile Junior Chamber of Commerce.

IMPORTANT NOTICE

As a protection to our customers who are entitled to wholesale prices, we ask that they do not lend this catalog to retail buyers. Offers in this catalog are extended only to those in the trade. Should this list get into the hands of those not entitled to the prices, please advise us that we might correct our mailing list. Thank you.

TERMS AND CONDITIONS

TERMS OF PAYMENT

CASH with order: 3% discount boxing fee. Open accounts to those with approved credit only.

SPECIAL DISCOUNTS for truck loads and carloads.

C.O.D. ORDERS must be accompanied by 25% of purchase amount. For a deposit of 25% on any order, we will hold same.

PRICES

Lots of 5, 50, and 500 of same variety and same size will be sold at the 10, 100 and 1000 rates. Specimen stock selected from or marked in the nursery by customers will be charged for according to its value. The prices will be a bit higher than the listed prices.

TRANSPORTATION

Please state how you want shipment made, whether by freight or express; also the route desired.

We use our best judgment without accepting responsibility when you fail to give definite shipping instructions.

LIABILITY AND CLAIMS

We are not liable for injury to stock from frost, hail, fire, or other causes beyond our control and we book orders with that understanding. While we use every means at our command to secure prompt delivery, we are NOT liable for delays in transit. Our responsibility ceases upon delivery in good order to the transportation agency. Correction for losses lies between the buyer and the agency, but we will gladly render what assistance we can. Claims must be made immediately upon the receipt of stock.

NON-WARRANTY CLAUSE

We give no warranty, expressed or implied, as to the description, quality, productiveness or any other matter, of any nursery stock, seed, bulbs or plants we sell.

GRADES

We grade liberally. All stock of specified sizes are well developed and well rooted. No effort or expense is spared to assure you the best plants possible and all plants must meet our required standard or otherwise will not be shipped to anyone.

REFERENCES

As to our standing and responsibility we refer to any bank or business house in Mobile, Ala., the leading nurserymen of the United States, and the Mobile Chamber of Commerce.

AZALEAS

Our efforts of the past season have been amply rewarded with finest "crop" of Azaleas we have ever grown. As we said in our letter of introduction, we have developed some very fine plants in the Kurume type for the florist, but for the nurserymen and landscape men we have also the very best in Indica types as well as some very hardy Kurumes which, through special efforts, have been made to stand much colder weather than ordinary lath-house Azaleas. Local landscape men have found them a boon to their trade. As this list goes to press, our lining-out stock is in prime condition and from all indications, promises to be the "tops" in this section this year.

For culture, Azaleas need only slight attention and wonderful results may be obtained. They require a light, well-drained soil, slightly acid and containing peat moss or leaf mold if available. Partial shade, especially when young, and ample water during the dry weather are the other essentials.

Azaleas have proven their value in the South to the nurserymen and are rapidly proving their worth as pot plants to the Northern florists. Use more Azaleas! You will find them a very profitable item in your trade.

INDICA AZALEA

The most popular of all Southern flowering shrubs and evergreens, the Indica Azaleas continues to retain it's unequalled charm and beauty in the landscaped gardens and lawns of the smallest to the largest estates.

As their popularity continues to gain, our efforts to produce the best stock continues and now we have a fine supply of a good number of this type. All are well rooted, have been root-pruned and are guaranteed to have the best foliage color that can be produced. We urge you to try at least a few. You will be completely satisfied with the sales of these fine, beautiful plants.

BRILLIANT—Good fast grower, with medium large dark green foliage. Deep watermelon color. A good variety. 6-8 inches to 18-24 inches.

CRITERION—Compact grower and late bloomer. Very attractive flower of strawberry color, streaked with a deep pink and edged with a white margin. 6-8 inches to 15-18 inches.

ELEGANCE—Fast and upright grower with light pink flowers that bloom early. 6-8 inches to 18-24 inches.

FORMOSA—(Known also as General Lafayette) Probably the finest of its color. Purplish pink, a strong robust Azalea with large dark leaves and large flowers. Blooms early and a fast grower. It is very hardy. 6-8 inches to 2-3 feet.

GLORY OF SUNNYHILL—Compact grower with shiny, narrow leaves. One of the latest bloomers with an orange-scarlet flower. 6-8 inches to 15-18 inches.

PRIDE OF MOBILE—(Originally known as Watermelon Pink) By far the best Indica Azalea. It is a fast grower with foliage a shade lighter than that of Formosa. Very hardy and a good bloomer, forming blossoms in masses that completely cover the plant. 6-8 inches to 2-3 feet.

PRINCE OF ORANGE—A compact grower, slightly spreading with large flowers of a deep orange-red color. They bloom a little after mid-season. 6-8 inches to 12-18 inches.

DAPHNE SALMON—With medium flowers, typical of the name in color, it is a very hardy plant that is ideal for greenhouse culture. 6-8 inches to 12-18 inches.

WHITE—Slightly upright and a fast grower with large pure white flowers. Very good for group plantings in informal gardens. 6-8 inches to 12-18 inches.

KURUME AZALEAS

Compact form, adapt for forcing, hardy and a veritable riot of color when in bloom, briefly describes the Kurume Azaleas.

Having gained rapid popularity, they are nearly the "tops" for all types of trade; being used in border plantings, in effective combinations with Indica Azaleas, with various landscape plans and now, a profitable pot plant for the florists and greenhouse men.

Some local nurserymen list the taller growing Kurumes as "Hardy Japanese." Since most of them are only Kurumes, the only distinction we make is stating the habit of growth in separate varieties as we list them.

HINODEGIRI (10-12 inch spread)

BENIGIRI—Bright deep pink, single, mid-season and upright grower. Very pleasing. 4-6 inches to 15-18 inches.

BRIDESMAID—With clusters of large salmon-pink blossoms, this plant is a very good grower. Low and compact. 4-6 inches to 10-12 inches.

CHERRY BLOSSOM—Compact, slightly upright with large white flowers tinted with pink. 4-6 inches to 18-24 inches.

CHRISTMAS CHEER—Small, deep crimson flowers, compact plant that is good for pot culture. Very good for Christmas plant as it is profusely in bloom at that season. 4-6 inches to 12-18 inches.

CORAL BELLS—Coral pink, well shaped, hose in hose flowers. It is one of the best plants for floriculture. Small leaves and a compact grower. Very beautiful. 4-6 inches to 18-24 inches.

HEXE (Firefly)—Slow, compact grower with showy deep scarlet, hose in hose flowers. Small sizes to offer this year.

HINODEGIRI—One of the most popular of all Kurume Azaleas. Deep red flowers that are borne in brilliant clusters. Slow, compact grower that makes it good for a pot plant. Continuously a favorite. 4-6 inches to 15-18 inches.

PEACH BLOW—A fast growing, slightly upright plant with single flowers of a peach color. Blooms in mid-season. 4-6 inches to 18-24 inches.

PINK PEARL—Another hose in hose type with large salmon-rose flowers that have a light center. Upright, yet compact grower. 4-8 inches to 18-24 inches.

SALMON BEAUTY—Large size, hose in hose salmon-pink flowers with light green foliage.

SALMON QUEEN—Large size, single flowers of salmon-pink are produced in great profusion in mid-season. One of the most attractive.

SNOW—Pure, snow white, hose in hose flowers that cover the plant. Dense and compact grower with dark green foliage. Best liked white azalea. 4-6 inches to 18-24 inches.

SUN STAR—Heavily borne, dark rose-pink flowers that are borne in clusters. Grows moderately and bears small dark green leaves. 4-6 inches to 15-18 inches.

SWEET BRIER—Single pink flowers, touched lightly with a peach tint. Compact and hardy with dark green foliage that makes a good background for the pretty blossoms. 4-6 inches to 10-12 inches. Prices on Kurume Azaleas:

FLORISTS: Take a tip from us. Well sheared and heavily budded, bushy Kurumes are going to be hard to find this year. We have them, so book your order early.

CAMELLIA JAPONICA

Presenting a grand array of color in the bleak and otherwise blossomless winter, the *Camellia Japonica*, "Aristocrat of the South," is gaining rapid favor in the other sections of the country. Its beauty and importance has been definitely recognized on the West coast and favorable comments from the Northern florists continue to increase.

Camellia culture presents no particular difficulties, but special care will be over-rewarded with beautiful, lasting blossoms. First they must have a soil that is acid in reaction and if this condition is not already present, it may easily be obtained by addition of leaf-mold, peat-moss and applications of aluminum sulphate, one-quarter pound to a square yard.

Keep soil moist, yet not soggy. The *Camellias* are shallow rooted and deep cultivation is not advisable. Full sun, only after plants are two or more years old is advisable for best bloom buds. Partial shade (no afternoon sun) gives more growth and a glossier green color.

Camellias may be fertilized with a mixture of cotton seed meal, super phosphate, potash and well-rotted manure in the respective parts of 10-2-1-5. Aluminum sulphate to be added one-half part if soil needs acidifying.

The few diseases and insects of the *Camellia* may be controlled easily. *Camellia* or Tea scale, the most prominent, may be eliminated by use of Florida Volck, one part to 50 parts of water. Spraying should be done in the early morning or late afternoon to prevent leaf-scalding. To protect the valued bloom buds, do not spray in the winter.

Our *Camellias* have a beautiful color (good number of them having been shaded) and are full of fine bloom-buds. Since there is a limited supply, you will do well to place your order early to get the varieties and number you want.

CLASS "A" CAMELLIAS

ALBA PLENO—Large, snow-white, double flowers that bloom early. 3-5 inch to 18-24 inch.

BROOKLYANA—Very double, pink flowers with white splotches. A bushy plant with large light green leaves. Small sizes only.

CHANDLERI ELEGANS—A very large, peony shaped flower with a red and white variegation, the stamens and petals being either closely or loosely formed. 3-5 inch to 2-3 feet.

ENRICO BETTONI—Large, pink blossoms, varying in shape from double to peony on same bush. Fast grower and heavily budded. Small sizes only.

HERMES—One of the most popular *Camellias*, a pink and red variegation with a white margin in a loosely, peony-shaped, large flower. 3-5 inch to 2-3 feet.

MADAM "C"—A seedling developed in our nurseries to become one of the most beautiful semi-double *camellias*. It has symmetrically-shaped, red wax-like petals with a soft, velvety orange tint. Holds blossoms for an unusually long period and is a prolific bloomer. 3-5 inch to 2-3 feet.

MONARCH—Huge dark pink flowers of a peony shape type on a small compact plant that makes quite a picture when the plant is in full bloom. 3-5 inch to 2-3 feet.

OTOME—Similar to Pink Perfection but much larger flowers, with each end of petals fading to lighter shade of shell-pink. Small sizes only.

PINK PERFECTION—Early blooming flower with symmetrically shaped petals of a soft shell pink color. Plant blooms profusely. 3-5 inch to 2-3 feet.

PROF. C. S. SARGENT—Very thick, peony form. Solid crimson, medium size. 3-5 inch to 2-3 feet.

SEMI-DOUBLE BLUSH—Very light pink color, almost white of a semi double formation of petals and stamens, the latter being a very bright yellow. 3-5 inch to 2-3 feet.

SOPHIA—Spreading habit of growth, medium flowers of pink and white variegation. Very similar to the Chandleri Elegans. Small sizes only.

CLASS "B" CAMELLIAS

MRS. ABBY WILDER—Medium, double white flowers often with splashes of pink. 3-5 inch to 2-3 feet.

AUSTILL PINK—Pink flower, a semi-double of medium size. The bush is a fast grower. 3-5 inch to 2-3 feet.

BEALI ROSEA—Flower similar to that of Pink Perfection but of a darker shade. Very double and medium size. 3-5 inch to 2-3 feet.

BROWN'S RED—A very dark red camellia of a semi-double type. 3-5 inch to 2-3 feet.

DUKE DE ORLEANS—A pink-splashed, creamy white flower of a peony shape with stamens intermixed with the center petals. 3-5 inch to 2-3 feet.

ELIZABETH—Snow white flowers that are very double and with petals that are crinkled or frilled at the end. 3-5 inch to 2-3 feet.

GLOIRE DE NANTES—Large size, semi-double. Very dark green foliage. Fast grower. 3-5 inch to 2-3 feet.

JARVIS RED—Another dark red, semi-double flower with bright yellow stamens. A favorite. All sizes.

KELLINGTONIA—Large red flowers, white stripes. Blooms profusely and has large, heavy foliage.

MADAM STREAKALOFF—Peony form, light pink petals streaked with small stripes of crimson. All sizes.

MATHOTIANA ALBA—A very double white that opens like a rose-bud. Medium size flower that comes late. 3-5 inch to 18-24 inch.

PRINCE EUGENE NAPOLEON (Pope Pius IX)
Good size, very double scarlet flower; early to mid-season. Compact grower. 3-5 inch to 18-24 inch.

RAINY SUN — Large, semi-double, rose-red on erect bush with narrow, twisted leaves.

REV. JOHN BENNETT—Fairly large, orange-red flowers. Compact bush with dark green leaves.

ROSE EMRY—Crimson peony form of medium size, early in season. All sizes.

SINGLE RED NO. 1—Large single red blossoms, but very pretty.

STANDARD—Compact, heavily budded with imbricated blossoms of deep, double pink with white splotches.

TANNER-WILLIAMS RED — A large, semi-double red blossoms with dark green foliage on spreading bush. Heavy bloomer.

T. K. VARIEGATED—A light and dark pink variegation of semi-double type with bright yellow stamens. All sizes.

THERESA MOSSINE—Light pink blossoms, very double with small petals.

TRI-COLOR—Ranging in color from white to red and variegation, semi-double blossoms on bushy plants with large, dark green leaves.

RARE CAMELLIAS

GROUP I

LAUREL LEAF—Large, double flowers with twisted, narrow petals. Color, salmon-rose, blotched with white. Leaves similar to those of the Laurel and of a very beautiful green color. One of the most beautiful Camellias in existence today.

VICTOR EMANUEL—Considered the finest Camellia known, this beautiful, deep, violet red, large, peony-shaped blossom plant is the most sought for in the United States. It is unrivaled in beauty and magnificance. A very bushy grower, compact yet slightly upright.

GROUP II

COLONEL FIREY—Very large, bright red flowers, very double with symmetrically arranged petals. A late bloomer.

DAIKAGURA—One of the very earliest bloomers, often coming into bloom in this section in September. Large, thick, peony type bloom, light red with white blotches.

DEACON DODD—Large, peony-shaped blossoms. opening like a rose bud. Soft red petals, flecked with white blotches. Dark green leaves on upright, yet bushy plant. A very prolific bloomer.

DEBUTANTE—Velvet pink, peony form blossoms. Bushy grower with light green leaves.

FANNY BOLIS—Large, single red flowers with white blotches.

KUMASAKA—Large, deep pink, peony-shaped blooms with white splotches.

LADY CLARE—Huge, single pink blooms. One of the very largest camellia blooms.

MARCHIONESS OF EXETER—Very similar to the Debutante, but a deeper pink color. An early bloomer.

NAGASAKI—Semi-double, rose pink flowers spotted with white. Round, dark green foliage. Slow in growth and a late bloomer.

PURPLE EMPEROR—(*Mathotiana Rubra*; **Purple Dawn**) Large, symmetrically shaped flowers. Red in center to purple on the outer edge.

SNOWDRIFT—A beautiful formed, semi-double blossom of pure white. Long, dull green foliage and good grower.

GROUP III

GOSHOGORUMA—Dark red, semi-double flowers of medium size. Very noticeable yellow anthers.

GOVERNOR MOUTON—Very beautifully shaped plant, slightly upright-spreading in habit with very deep red marbled with white.

KIMBERLY—Very bright red single flowers, with red stamens. Good size.

LADY VAN SITTI—Semi-double red variety with dark green foliage. Slow grower and late bloomer.

PRINCE ALBERT—Rosy pink flowers, spotted with white. Good size and peony form.

PURITY — Large flowering, full double, white. Free flowering star-shaped. A very good white.

ST. ELMO—(A. E. Wilson) Peony-formed, full flower of deep pink. A fast, tall grower and early bloomer.

LIGUSTRUM LUCIDUM, Glossy (Wax) Privet

Well known "Wax Privet" that stands all conditions and meets all requirements in any problem. Beautiful glossy green foliage. Our stock, the largest in

the south, is all well pruned and pinched. Special care given our plants results in an excellent foliage, color and root system.

LIGUSTRUM NEPALENSIS, Nepal Privet

Similar to Wax but more compact grower, with smaller leaf and lighter green in color.

LIGUSTRUM PYRAMIDALIS, Upright Privet

Similar to "Wax" but a more upright grower. Foliage smaller and darker. This Privet has unlimited uses.

Prices on above Privet:

LIGUSTRUM SINENSES, Chinese Privet.

Very hardy hedge plant with attractive foliage that is evergreen in the South. Used extensively in the South.

2-3 feet BR	\$4.50
3-4 feet BR	5.50

LONICERA FRAGRANTISSIMA, Winter Honey-suckle.

Fragrant white flowers in March and April.

12-18 inch BR	\$1.25	\$10.00
18-24 inch BR	1.75	15.00
2-3 feet BR	2.50	20.00

ORIENTAL MAGNOLIAS

The most beautiful of all flowering trees. This group of Magnolias are known the world over for their beautiful blooms. They are quite hardy in most northern parts of the United States. Magnolias are becoming more popular year by year and each nurseryman should see that he has a few plants and that his customers have at least a few plants of each variety.

(Note: Magnolias must be fertilized and worked regularly to assure proper blooms in the spring. Nurserymen should advise their customers.)

MAGNOLIA LILIFLORA (M. Obovata)

Tulip-shaped, large size, purplish flowers before the leaves appear. Many stems from the ground. A fast grower and free bloomer.

MAGNOLIA LILIFLORA NIGRA, Purple Lily Magnolia.

A vigorous grower, unusually attractive with its wine-colored flowers and distinct leaves. Blooms in early spring before leaves appear.

Prices on above two Magnolias:

	Each	10	100
2-3 feet B&B	\$1.25	\$10.00	
3-4 feet B&B	1.50	12.50	
4-5 feet B&B	1.75	15.00	
5-6 feet B&B	2.00	17.50	
6-8 feet B&B	3.00	25.00	

MAGNOLIA SOULANGEANA, Saucer Magnolia.

In mid-spring, before the leaves appear, the great furry flower-buds suddenly burst open, revealing enormous chalice-shaped flowers often six inches across. The flowers, waxy white, petals tinged with purple or rose; unusually attractive. Leaves large, glossy green.

3-4 feet, B&B	\$1.75	\$15.00
4-5 feet, B&B	2.25	20.00
5-6 feet, B&B	2.50	22.50

MAGNOLIA STELLATA, Star Magnolia.

Spreading habit of growth. Fragrant semi-double white flowers appearing before leaves.

2-3 feet B&B	\$2.25	\$20.00
3-4 feet B&B	2.75	25.00

NURSERYMEN see us for attractive prices in larger quantities. A carload order will save and make you money.

SPIRAEA ANTHONY WATERER, Spirea A. W.

A most valuable dwarf shrub, bright red flowers almost the year round.

	Each	10	100
12-15 inch BR		\$1.00	\$ 8.00
15-18 inch BR		1.25	10.00

LAWN GRASSES

ZOYZIA MATRELLA (No. 13521) — This fine grass, not to be confused with the *Zoyzia japonica*, is a dark green, fine-leaved type which produces a dense mat of growth that feels like a rug. First grass to come out in the spring and last to turn brown in the Fall. Grows well in both the sun and shade. Since no seed available, must be propagated vegetatively. Very probably the best lawn grass for the entire South.

Prices on above grass:

	Each	10	
2 inch pots6\$	4.00	30.00

CENTIPEDE — *Eremahlea oppuloides* — Another comparatively new grass with leaves not quite as fine as the *Zoyzia* and just a shade lighter. Grows well in sun and stands a moderate amount of shade. Will choke out the weeds and covers very quickly. Under conditions where care is not given, this is the best Lawn grass available. Should not be fertilized very much.

ST. AUGUSTINE—*Stenotaphrum secundatum*—St. Augustine has gained its popularity in the South because of its ability to grow well in the shade, to cover the ground rapidly. Has a large leaf, dark green with a very glossy color. Does very well in the sun as well as shade.

BLUE-STEM ST. AUGUSTINE — This bitter-root type of St. Augustine, lately introduced in the South is a lighter, bluer grass than the first type. It's growing habits and advantages are practically the same as the green type. Available in June, 1942. Prices on above grasses:

	Each	10	
Square yard	1.25	10.00	

MISCELLANEOUS GRASSES

LIRIOPE MUSCARI DENSIFLORA — **Big Blue Liriope**—A low, grass-like evergreen with leaves 12 inches in length and large spikes of blue flowers in the Summer. Very good for bordering, edging or rock gardens.
